ABOUT ME

Full Stack Developer with experience building scalable web and mobile applications using .NET, React, and Flutter. Strong background in RESTful API development, microservices architecture, and database design. Skilled in delivering efficient, maintainable solutions through clean architecture, event-driven design, and modern development practices.

EDUCATION

INSTITUTO TECNOLÓGICO DE LAS AMÉRICAS (ITLA)

Software Development Technologist
2023 – 2025 | Graduated

TECHNICAL SKILLS

- Languages: C#, JavaScript, TypeScript, Dart
- Web: React, Next.js, HTML5, CSS3, Tailwind CSS
- Mobile: Flutter
- Databases: PostgreSQL, SQL Server, Redis
- Backend / APIs: .NET, ASP.NET Core, RESTful APIs, Entity Framework Core, JWT Auth
- Architecture: Clean Architecture, CQRS, SOLID
- Cloud / DevOps: Azure, Docker, CI/CD
- Tools: Git, GitHub, Azure DevOps
- Methodologies: Scrum / Agile

LANGUAGES

- Spanish: Native
- English: B1

REFERENCES

- Prof. Darryl Caraballo

PROFESSIONAL EXPERIENCE

Freelance Software Developer

Self-Employed - Remote Oct 2025 - Present

- Developed a personal finance mobile application for a private client using Flutter and Supabase, enabling real-time tracking of assets, liabilities and net worth.
- Designed and managed the full database schema in Supabase, including tables, relationships, and row-level security.
- Implemented beneficiary management system to distribute assets among designated recipients.
- Owned the complete development lifecycle, from requirements gathering to deployment and testing.

Software Developer Intern

Dirección General de Impuestos Internos (DGII) | Santo Domingo, DR Oct 2025 – Feb 2026

- Developed .NET-based desktop tools to automate invoice validation processes, reducing manual workload and improving operational efficiency.
- Automated repetitive service validation workflows, minimizing human intervention and reducing processing time.
- Collaborated with technical teams to integrate internal systems and improve service reliability.
- Applied debugging and testing strategies to ensure system stability and performance.

CERTIFICATIONS & COURSES

- Foundational C# with Microsoft - Microsoft (Jun 2026)
- Microsoft Azure Fundamentals AZ-900 – Microsoft (In Progress)
- Arquitectura Backend – Platzi (Dec 2025)
- IT Essentials - Cisco Networking Academy (Sep 2023)

PROJECTS

Rappix — Delivery Platform 2026 – Present

Microservices backend on .NET 10 with sagas, Stripe payments, real-time SignalR tracking and API Gateway with YARP. — ASP.NET Core · RabbitMQ · PostgreSQL · Redis · Docker · SignalR · YARP

E-Commerce Microservices April. 2026

E-commerce platform built with microservices architecture, asynchronous communication through messaging, and container-based deployment. — ASP.NET Core · Docker · RabbitMQ · SQL Server

NetEstate - Web Platform & RESTful API Oct. 2025

Modular real estate management system with Onion Architecture, CQRS, JWT auth, and email notifications. — ASP.NET Core · Razor Pages · MediatR · ASP.NET Identity

Personal Web Portfolio 2024 – Present

Personal website designed and built from scratch to showcase projects and skills. — Next.js · Tailwind CSS
